

SPRINT Robotics Seminar Program

Global Outlook on Maintenance & Inspection Robotics.
23/09/2015 Shell Technology Centre Amsterdam

Time	Title Presentation	Speaker
09:30	Welcome and Safety Instructions	Tjibbe Bouma (SPRINT Robotics), Sieger Terpstra / Martin van den Heuvel (Shell)
10:00	Shell Perspective on added value of Robotics for Inspection & Maintenance)	Yuri Sebregts (Shell, EVP Innovation and R&D and CTO)
10:30	The SPRINT Robotics Collaborative: Mission, Activities and Updates	Tjibbe Bouma (SPRINT Robotics, Chairman)
10:40	The Total Argos Challenge	Kris Kydd (Total, Program Director)
11:00	Coffee Break	
11:15	Aerial robotics for inspection & maintenance: state of the art, opportunities and challenges.	Konstantin Kondak (German Aerospace Centre DLR, Head of Flying Robots Group)
12:30	Lunch	
13:30	Robotic Paradigms for the Future of Process Industries	Karthik Sundaram (Frost & Sullivan, Program leader Industrial Internet of Things)
14:00	The North American Perspective on Robotics for Inspection & Maintenance	John Nyholt (BP, Vice Chairman API NDT Task Force)
14:30	Afternoon Tea	
15:00	Asset Integrity Management Needs in Oil & Gas Industry (working title)	Robert Harrington (Chevron, Global Lead Asset Integrity Management)
15:30	Robotics Applications at STATOIL	Anders Røyrvøy (Statoil, Principal Researcher Operation & Maintenance Management)
15:50	Discussion	Tjibbe Bouma (SPRINT Robotics, Chairman)
16:30	Closing
